Education

2008-08 – 2012-05
Bachelor of Science: Business Administration

University of Connecticut - Storrs, CT USA
Concentration in Entrepreneurial Studies

2022-01 – 2022-06
Mobile And Web Development

NuCamp Full Stack Bootcamp

Languages

English
Advanced

Spanish
Upper intermediate

As a recent graduate of NuCamp's Full Stack Web and Mobile Development Bootcamp, I possess hands-on experience with the MERN stack and proficiency in HTML, CSS, and JavaScript. With strong problem-solving and debugging skills, I am well-prepared for a junior front-end web developer role, supported by a background in Business Administration, customer service, sales, and teaching, driving my passion for creating user-friendly websites.

Full Stack Projects at patrickobrien.onrender.com

-MERN E-Commerce Boilerplate: Robust e-commerce platform with guest, user, and admin features for seamless product management and order tracking.
-HP Notepad: Organizational tool for myself and 15+ colleagues, featuring a dynamic email generator, productivity tracker, and daily RapidAPI-powered dashboard.
-Portfolio: Demonstrates design expertise using Figma and Material UI for clean, responsive solutions.
-Active Server: Developed to bypass Render and Cyclic limitations, serving as a Node.js backbone for optimized project performance and scalability.
